INFORMATION

Passengers may carry two [2] pieces of hand luggage on board. Hand luggage must be of such size to fit under the seat. Only hand luggage will be allowed to be transported in the passenger areas. There is no charge for your two [2] pieces of hand luggage. Items other than hand luggage are considered freight and must be handled both on and off the ferry by the crew. Due to the quantity, size and weight of freight, limited space on board, weather conditions, loading and unloading time and the safety and convenience of all our passengers, the crew at times will limit the amount of freight carried on a particular trip. Personal freight limitations will be all items except groceries [not more than 5 bags] and electronic equipment [not more than 25 pounds per item]. Compressed gas cylinders and flammable liquids are not permitted on the ferry. Freight not able to be transported on the ferry can be shipped on a scheduled freight boat.
